&
European Circular Economy Stakeholder
Platform (ECESP)***

***Seconda Conferenza Annuale ICESP
Roma, 27 Novembre 2019***

***Federico Porrà
Responsabile di Politiche Economia Circolare
Direzione Generale Ambiente – Commissione europea***

Piano d'Azione per l'economia circolare (2015-2019)

4+1 aree-chiave
5 settori prioritari
54 azioni

Actions	Timetable
Production	
Emphasis on circular economy aspects in future product requirements under the Eco-design directive.	2016 onwards
Eco-design work plan 2015-2017 and request to European standardisation organisations to develop standards on material efficiency for setting future Eco-design requirements on durability, reparability and recyclability of products.	December 2015
Proposal for an implementing regulation on televisions and displays	End 2015 or beginning 2016
Examine options and actions for a more coherent policy framework of the different strands of work of EU product policy in their contribution to the circular economy.	2018
Include guidance on circular economy into Best Available Techniques reference documents (BREFs) for several industrial sectors	2016 onwards
Guidance and promotion of best practices in the mining waste management plans	2018
Establishing an open, pan-European network of technological infrastructures for SMEs to integrate advanced manufacturing technologies into their production processes	2016 onwards
Examine how to improve the efficiency and uptake of the EU Eco-Management and Audit Scheme (EMAS) and the pilot programme on environmental technology verification (ETV)	2017
Develop an improved knowledge base and support to SMEs for the substitution of hazardous substances of very high concern	2018

Actions	Timetable
Consumption	
Better enforcement of existing guarantees on tangible products, accompanied by a reflection on improvements (upcoming Commission proposal for online sales of goods, and Fitness Check of consumer legislation)	2015-2017
Action on false green claims, including updated guidance on unfair commercial practices	2016
Analysis of the possibility to propose horizontal requirements on repair information provision in the context of Eco-design	2018
REFIT of Eco-label, to be followed by actions to enhance its effectiveness	2016
Assessment of the possibility of an independent testing programme on planned obsolescence	2018
Subject to evaluation of the current ongoing pilots, explore the possible uses of the Product Environmental Footprint to measure and communicate environmental information	2016 onwards
Action on Green Public Procurement: enhanced integration of circular economy requirements, support to higher uptake including through training schemes, reinforcing its use in Commission procurement and EU funds	2016 onwards

Actions	Timetable
Waste management	
Revised legislative proposal on waste	Dec 2015
Improved cooperation with Member States for better implementation of EU waste legislation, and combat illicit shipment of end of life vehicles	2015 onwards
Stepping up enforcement of revised Waste Shipment regulation	2016 onwards
Promotion of industry-led voluntary certification of treatment facilities for key waste/recyclable streams	2018 onwards
Initiative on waste to energy in the framework of the Energy Union	2016
Identification and dissemination of good practices in waste collection systems	2016 onwards

Actions	Timetable
Market for secondary raw materials	
Development of quality standards for secondary raw materials (in particular for plastics)	2016 onwards
Proposal for a revised fertilisers regulation	Early 2016
Proposed legislation setting minimum requirements for reused water for irrigation and groundwater recharge	2017
Promotion of safe and cost-effective water reuse, including guidance on the integration of water reuse in water planning and management, inclusion of best practices in relevant BREFs, and support to innovation (through the European Innovation Partnership and Horizon 2020) and investments	2016-2017

Analysis and policy options to address the interface between chemicals, products and waste legislation, including how to reduce the presence and improve the tracking of chemicals of concern in products	2017
Measures to facilitate waste shipment across the EU, including electronic data exchange (and possibly other measures)	2016 onwards
Further development of the EU raw materials information system	2016 onwards

Sectorial action	
Plastics	
Strategy on plastics in the circular economy	2017
Specific action to reduce marine litter implementing the 2030 Sustainable Development Goals	2018 onwards

Food waste	
Development of a common methodology and indicators to measure food waste	2016
Stakeholders platform to examine how to achieve SDGs goals on food waste, share best practice and evaluate progress	2016
Clarify relevant EU legislation related to waste, food and feed in order to facilitate food donation and utilisation of former foodstuffs for animal feed	2016
Explore options for more effective use and understanding of date marking on food	2017

Critical raw materials	
Report on critical raw materials and the circular economy	2017
Improve exchange of information between manufacturers and recyclers on electronic products	2016 onwards
European standards for material-efficient recycling of electronic waste, waste batteries and other relevant complex end-of-life products	2016 onwards
Sharing of best practice for the recovery of critical raw materials from mining waste and landfills	2017

Construction and demolition	
Pre-demolition assessment guidelines for the construction sector	2017
Voluntary industry-wide recycling protocol for construction and demolition waste	2016
Core indicators for the assessment of the lifecycle environmental performance of a building, and incentives for their use	2017 onwards

Biomass and bio-based materials	
Guidance and dissemination of best practice on the cascading use of biomass and support to innovation in this domain through Horizon 2020	2018-2019
Ensuring coherence and synergies with the circular economy when examining the sustainability of bioenergy under the Energy Union	2016
Assessment of the contribution of the 2012 Bio-economy Strategy to the circular economy and possible review	2016

Innovation and investments	
Initiative "Industry 2020 and the circular economy" under Horizon 2020	October 2015
Pilot project for "innovation deals" to address possible regulatory obstacles for innovators	2016
Targeted outreach to encourage applications for funding under EFSI, and support the development of projects and investment platforms relevant to the circular economy	2016 onwards
Targeted outreach and communication activities to assist Member States and regions for the uptake of Cohesion Policy funds for the circular economy	2016 onwards
Support to Member States and regions to strengthen innovation for the circular economy through smart specialisation	2016 onwards
Assessment of the possibilities of innovative financing together with the EIP, national banks to support the financing of the circular economy	2016
Engagement with stakeholders in the implementation of this action plan through existing fora in key sectors	2016 onwards
Support to a range of stakeholders through actions on public-private partnerships, cooperation platforms, support to voluntary business approaches, and exchanges of best practices	2015 onwards
Monitoring	
Development of a monitoring framework for the circular economy	2017

Verso un *Green Deal* europeo

Orientamenti politici:

1. Primo continente a impatto climatico zero

2. Una transizione equa & Piano d'investimenti per un'Europa sostenibile

3. Preservare l'ambiente naturale dell'Europa

**Nuovo Piano
d'Azione per
l'economia
circolare**

"Nei primi 100 giorni del mio mandato proporrò un Green Deal europeo"

Ursula von der Leyen
Presidente Commissione europea

Inter-istituzionale: Conclusioni del Consiglio (4/10)

- Conclusioni su «Maggiore circolarità - Transizione verso una società sostenibile»
- Il Consiglio invita la Commissione a presentare un ambizioso quadro strategico a lungo termine che comprenda una visione comune per un'economia circolare e ad adottare un **nuovo piano d'azione per l'economia circolare** che preveda azioni mirate.
- Il Consiglio invita ad agire per promuovere la **circolarità a livello sistemico in tutta la catena del valore**, anche dal punto di vista dei consumatori, in settori chiave come quello *alimentare, tessile, dei trasporti, dell'edilizia*. Il Consiglio sottolinea inoltre la necessità di ulteriori misure per quanto riguarda le batterie e le materie plastiche.

“Sfide aperte” – Relazione 2019 sul Piano d’Azione

Follow-up ad azioni presenti nel primo Piano d’Azione:

- Prodotti e servizi circolari
- Responsabilizzazione dei consumatori
- Attuazione legislazione vigente
- Sviluppo dei mercati per le materie prime secondarie

Aumentare le sinergie con altre trasformazioni sistemiche:

- Utilizzo circolare delle risorse biologiche che rispetti i limiti ecologici e contribuisca a porre un freno alla perdita di biodiversità
- Esplorare e sfruttare le sinergie con gli sforzi per raggiungere un'economia a impatto climatico zero
- Integrazione della trasformazione digitale (con impatto netto positivo sulle risorse)
- Supporto a coesione sociale e territoriale, distribuzione equilibrata di posti di lavoro per una crescita equa e sostenibile.
- Sfruttare le sinergie su finanza sostenibile per una economia circolare

Economia circolare in settori strategici:

- Settore IT, elettronica, mobilità, edilizia, settore minerario, mobili, alimenti e bevande, settore tessile

European Circular Economy Stakeholder Platform

#CEStakeholderEU

- Un'iniziativa congiunta della Commissione europea e del Comitato economico e sociale europeo
- Uno strumento europeo che consente a portatori d'interesse provenienti da paesi e settori diversi di incontrarsi e interagire
- ***Network of networks***
- Uno strumento per sostenere la transizione verso un'economia circolare

Conferenza 2019

- *Partecipazione politica: 2 Vice-Presidenti Commissione, 1 Commissario, 2 Direttori Generali (ENV, CLIMA), rappresentanti del Parlamento Europeo, Presidente CESE*
- *2 giornate di lavori (6-7 Marzo): Commissione, CESE*
- *550+350 partecipanti; provenienti da >45 paesi*

→ *ICESP ruolo attivo day2*
